

# Cooperative CALENDAR of STUDENT ART

Electric  
Consumer

IEC  
INDIANA ELECTRIC  
COOPERATIVES

## ART CONTEST RULES

**This is the complete set of rules for this year's Cooperative Calendar of Student Art Contest. The winning art from each grade division will be used to illustrate the Cooperative Calendar of Student Art for 2019.**

### Who Can Enter

Indiana public, private, or home-schooled students in kindergarten through 12th grade during the 2017-18 school year.

- Students do not have to be consumers of a rural electric cooperative (REMC/REC).
- Artwork can be submitted by teachers, youth leaders, or others as a group or class project, or by individual students or their parents or guardians.
- Students may enter as often as they wish.

### How the Contest Will Be Judged

Artwork will be judged on artistic merit, originality, creativity, how well the assigned month is depicted, and suitability for a wall calendar. Artwork can be landscapes, portraits, still lifes, etc., as long as the monthly theme is somehow portrayed. A panel of judges will select winners in spring of 2018.

### How the Contest Works

Match the grade the student is in during the current (2017-18) school year to the corresponding month. Students should draw or paint a picture to illustrate their assigned month.

1st grade - January	5th grade - May	9th grade - September
2nd grade - February	6th grade - June	10th grade - October
3rd grade - March	7th grade - July	11th grade - November
4th grade - April	8th grade - August	12th grade - December

Kindergarten students will create the cover art. There is no theme for the cover: any subject, season, event, etc., is acceptable.

### Rules For Originality

Students and teachers/parents/guardians are responsible for entering only ORIGINAL WORKS of art totally produced by the participating students.

- Artwork MAY NOT be copied from other sources without substantial creative changes; this includes other paintings and photographs — unless the photo was composed and/or taken by the student or family member with the student's direction.
- Every element of the artwork (design, lines, marks, paint, color, shapes, shading, highlights, etc.) must be the work of the student whose name appears on the back of the artwork and be done by that student's hand.

- No tracing of other works is allowed, including sketches by teachers, parents, etc.
- This contest highlights traditional artistic skills. No photographs or artwork created or altered with a computer will be judged for inclusion in the calendar.
- Artwork deemed to be too similar to a copied source or plagiarized will be disqualified. If plagiarism is discovered after awards are made and/or the calendar printed, Electric Consumer reserves the right to request the award money be returned. The student also may be disqualified from future contests, and the artwork and student's name will be removed from our website gallery of past winners.

### How Artwork Should Be Submitted

Drawings should be no larger than 11x14 inches and no smaller than 8x10 inches. (Paintings on canvas can be larger.) Drawings on white or light-colored paper will reproduce best. Do not use ruled notebook paper.

- The artwork can be most any medium as long as the art is relatively flat. Charcoal and pastel drawings should be sprayed with a fixative. Do not use glitter, sand, liquids, or other elements that can flake off or otherwise damage the works of other students. No photographic process, digitally-created or digitally-manipulated art, metallic or fluorescent paints may be used in the finished, submitted art entry.
- Artwork in the horizontal or "landscape" position best fits the wall calendar's format.
- The artwork should be stand-alone artwork; do not include the name of the month, days of the week, or calendar dates into the art itself.
- Submit the original artwork. Judges will not consider photocopies.
- Do not mount, mat, or frame artwork.
- Do not fold or crease artwork.
- Please do not submit artwork from previous years.

### How artwork/artist should be identified

One of following two methods **MUST** be used to identify the art and artist depending where the artwork was created or how submitted. Please use the most appropriate method.

#### Entries from Home or a Small Group (Method A)

On the back of each entry, in the lower right hand corner, legibly print: student's first and last name, age, grade, school, names of parents or guardians, complete home address with city and ZIP, and phone number with area code. Also, please title the work,

*Please turn to page 2 for additional information.*

# Cooperative CALENDAR of STUDENT ART

briefly note how it connects to the month if the connection is not obvious and include any other info judges might find useful.

In addition to information on the back of each entry, each entry must include a copy of the entry form (A) for the 2019 calendar available from *Electric Consumer* or downloaded from [ElectricConsumer.org](http://ElectricConsumer.org). The form must be signed by each student-artist and parent/guardian (if the student is under 18 years old) acknowledging the student has adhered to the rules of originality and each submission is original according to the guidelines above.

## Entries from a Large Group, Classroom, or School (Method B)

If including all the above information is impractical because of the number entries or is a violation of school policy, a large group of simultaneous entries from a single source should include on the back of each entry, in the lower right hand corner, the student's first and last name, grade and a complete contact phone number. Please make sure all information is included and legible, and group submissions are sorted by grade. Try to have the students title their works, briefly note the connection to the assigned month if it is not obvious, and include any other info or description of the work that judges might find helpful.

In addition to information on the back of each entry, each package of entries must include a copy of the entry form (B) for the 2019 calendar available from *Electric Consumer* or downloaded from [ElectricConsumer.org](http://ElectricConsumer.org). The form must be signed by the art instructor/classroom teacher acknowledging that the students have adhered to the rules of originality and each submission is original according to the guidelines above.

## Prizes

A first place "Artist of the Month" will be selected for each grade, K-12, and will receive \$200.

- Up to nine additional artists will be selected for honorable mention awards and receive \$50.
- An "Artist of the Year" also will be selected from among the first place winners for the Best of Show and receive an additional \$100.
- Artists who win either their grade division or honorable mention awards will receive 10 complimentary copies of the 2019 calendar.
- Judges will also select Award of Merit winners who will receive certificates.

## Notification of Winners

Only first place and honorable mention winners will be notified by phone. Results will be published in a 2018 issue of *Electric Consumer*, at [ElectricConsumer.org](http://ElectricConsumer.org) and in the 2019 calendar.

## Presentation of Artworks/Artists

The artworks and artists may be presented to the public in the following ways.

- First place winners from all grades will illustrate the designated month (or cover) of the 2019 Cooperative Calendar of Student Art, a wall calendar produced by *Electric Consumer* and distributed by participating Indiana electric cooperatives and other organizations around the state.

- The name, hometown and school of each winning student will be printed in the calendar along with the student's photograph. (Student photos will be requested after the contest is judged.)
- Up to nine additional pieces of art, chosen at large from all grades, will be chosen as honorable mentions and will be printed in a special back section of the calendar.
- The "Artist of the Year" will be featured in *Electric Consumer*, Indiana's electric co-op publication, after the winners are selected in March 2018.
- Names of the winners and winning artwork may also be featured in *Electric Consumer*.
- Names of the winners and winning artwork may also be featured in news releases distributed to media outlets.
- Additional pieces of artwork may be selected by participating REMCs/RECs for inclusion in localized versions of the calendar.
- Any artwork entered in the contest also may be selected for publications or materials printed by Indiana Electric Cooperatives to further publicize the art contest and calendar or displayed or presented with *Electric Consumer's* discretion.

## Rights

All artwork and reproduction rights become the property of *Electric Consumer*. This means we can print your artwork in the calendar, cooperative publications, website, and promotional materials and distribute artwork to the media for promotional purposes. We will respect the integrity of the artwork and will not allow the outside commercial use of entered artwork without permission of the artist (and parents/guardians).

## Returns

Artwork selected to appear in the calendar will be returned to the artists after the calendar is printed in September 2018. *Electric Consumer* may retain winning artwork for display at exhibitions and galleries through December 2018.

All other entries will not be returned unless requested and full prepaid postage and proper packaging is included when submitted. We will strive to have these submissions returned by mid-May 2018.

## Deadline

Artwork must be at the Indianapolis office of *Electric Consumer* by 3 p.m., Friday, March 23, 2018. Mailing address: P.O. Box 24517, Indianapolis, IN 46224; street address: 720 N. High School Road, Indianapolis, IN 46214. (Please do not drop off artwork at your local electric cooperative office unless the local REMC/REC has announced it is accepting entries at its location or the local office has agreed to special arrangements.)

## For More Details

Please contact Richard Biever or Emily Schilling at *Electric Consumer*, 317.487.2220, 800.340.7362, or [ec@indianaec.org](mailto:ec@indianaec.org).

A full set of rules and instructions is also available at [ElectricConsumer.org](http://ElectricConsumer.org).
